

Dürr China Held Foundation Laying Ceremony for New Factory

On the morning of Dec.08th, 2010, Dürr Paintshop Systems Engineering(Shanghai) Co.,Ltd observed the grand foundation laying of its new factory to be built in Baihe Town, Qingpu district, Shanghai, formally announcing the first ground breaking, thus opening a new page of Dürr's development in China. President & CEO of Dürr China Mr. Reiner Schmid, Chief Financial Officer Mr. Jiang Ming, Secretary of the Party committee of Baihe Town Mr. Yu Jianming, and landlord Mr. Liu Renda presented in the grand ceremony, together witnessing the historical moment.

Mr. Reiner Schmid gave an introduction about the new factory to the valued attendees effusively. The current production site was opened in 2005, and its floor space doubled to around 7,500 square meters in 2009. As demands in China getting bigger and bigger, new orders flood in, so even the expanded building is bursting at the seams. Management of Dürr China quickly decided to have a new site to enlarge the capacity. New plot locates in Baihe town, just 3 kilometers away from the current one. After finishing, it would be doubled in size compared with current one, mainly producing ovens, RoDip tunnels (housings) and other related painting equipments. According to the blue print, Dürr will have a campus integrating production, offices, show case etc. multifunction together, making it the general headquarter of Dürr China, undertaking great responsibility for development in the future.

Secretary of the Party committee Mr. Yu Jianming as representative of the town government, gave warm congratulation on the foundation laying ceremony, and placed great expectation on Dürr. Mr.Yu acknowledged Dürr's contribution to the industrial development of Baihe town, and expressed his eager to see the completion and operation.

As chief financial officer Mr. Jiang Ming said, ground breaking today stood for Dürr's determination in serving for China market and Dürr would surely provide this amazing market with technologies, systems, solutions continuously with high quality.
